Dear Mr. Pederson,

Thank you so much for your help in treating the "Summerglen" home for odors. Your bio-sterilization treatment was very effective and left the home smelling clean and fresh for the open house. No one would have ever known that the cats had left such bad odors. The home owners were well pleased and so am I. I will be happy to use you again, and recommend you to others needing help in treating homes for odors and mold.

Thanks again.
