

8/13/06

To whom it may concern,

I have been a client of Vaughan Pederson's CleaneAir Service and would like to tell you about my experience.

After purchasing an older house and installing central air conditioning I began have severe allergy, asthma and sinus problems. I saw several doctors who had me on inhalers, antihistamines, decongestants and cough medicines on a consistent basis and was still having recurrent sinus infections. I would finish one round of antibiotics, cough for month, be well for about a week and then get sick again.

Mr. Pederson came in and performed a CleaneAir Service in my house in February of 2006. Since that time I have not been sick once and am off all of the respiratory medication. The process took less than a day. I left for work, Mr. Pederson set up his machines and by the time I got home he was finished. There was no trace that he had even been in my house except for a slight, clean smelling scent. I have been healthy since his service.

I recommend CleaneAir fully and without hesitation.

Sincerely,

Lisa Vosdoganes
